Year 2013-----2014-----2015-----2016

In 2014, the Affordable Care Act (ACA) created insurance opportunities which allowed uninsured AIDS Drug Assistance Program (ADAP) enrollees to move from Ryan White HIV care to normalized full health care coverage. ACA insurance availability and Montana Medicaid Expansion have led to an ADAP enrollment increase of 105 persons, and have drastically reduced the number of uninsured.

## Number of Montanans Living with HIV under ACA and Montana Medicaid Expansion by Insurance Status

## ADAP Individuals Enrolled in Medicare

## Health Care Coverage for ADAP Enrollees
